

I personally benefit from listening to XM Satellite Radio and its traffic and weather channels. I find the reports very beneficial to my traveling experience and I do not want my choice of programming limited by BIG government brought on by the lobbying constituent, the NAB.

If we are really about choice when it comes to programming in this country the FCC will squash the NAB's petition 04-160.

XM radio provides variety and quality for me that is not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear.

I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.

Respectfully yours,

Stuart Kessler  
Concerned XM Radio Subscriber
